(rotations)

we rotate -endlessly-

in [self-similar] trajectories

while [gigantic] sand sound-storms

revolve above our forests of nothingness

I rotate -flawlessly-

in [self-critical] elliptical orbits

while [your] crystalline eyes, swivel

the laws of eternal dissolution

in [tangentially accelerated] paths,

sorrowful [self-similar] homelands,

spin frenetically, as you let [my]

untwisted violets fall apart

[++k]

*last, lust, for less life [loneliness]

yellow flower |dried from the rain of crystals|

which horizon embraces your sun-rays?

| yellow.free | crystals.brake | horizon.reset | sun-rays.shutdown |

yellow flower |drifted on the circles of starry lines|

who hunts your destiny?

| yellow.free | stars.scramble | destiny.killAll | break.break |

yellow flower |shimmering on the black paths of sky|

who translates your chlorophyl into

-as blue as- water |forever|

|yellow.free | sky.set | me.rebirth | me.forget |
